--------------------	---------

We are a company with **more than 180 years of experience** in the manufacture of stationery products.

Five generations for whom innovation and quality have been their main important pillars.

Pioneers with the introduction of products that changed the way to organize: the Integral diaries with a ring binder system and the already classic Notebooks with micro-perforated sheets and side band colours.

Today, **we continue betting on innovation** and we rely on the same 5 principles:

**Design.** Linking fashion and design with stationery. Collaborating with designers, artists and brands that are recognized both nationally and internationally.

**Adaptation.** Evolving with the environment, creating products for all genres, activities and ages.

**Internationalization.** Present in more than 60 countries and participating in the main international fairs.

**Quality.** Manufacturing high quality products using the best materials.

**Responsibility.** Taking care of the environment and guaranteeing the quality of our products and services with the ISO 9001 standard and the FSC seal.

We respond to the needs of our customers with more than 1,800 references distributed in all our catalogues: General Catalogue (with back to school collections, notebooks and writing instruments), Gift and Diaries

# NOTEBOOKS

## The Notebook World

In 1989 we created the Miquelrius Notebook. The first notebook with a system of bands of coloured subsections, microperforated and hole-punched sheets, which allows to organize by subjects or projects. Since then, our Notebook has been exported all over the world and its pages have been filled with millions of ideas, memories, plans and projects.

### THE HIGHEST QUALITY

The highest quality offset printed rule is subtle and clean, highlighting the writing, making it easier to read.

Writing upon Miquelrius paper

We use extra-opaque paper to avoid ink transfer and thanks to its fast drying, we also prevent its irradiation. The paper is so soft that writing on our paper is such a pleasure!

### EXTRA OPAQUE

### Covers:

- Cardboard covered with matt or gloss plasticised paper, compact and resistant.
- 100% recycled printed cardboard (post-consumer waste).
- Opaque or translucent polypropylene, lightweight, ultra resistant and flexible with 0.8 mm thick that provides consistency, durability and water resistance.
- Extra-hard card laminated in plastic covers.

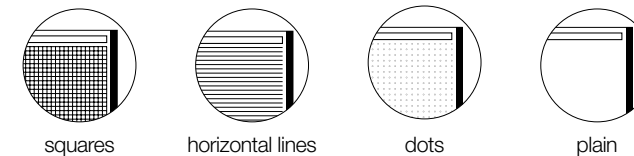

### Sizes:

A4 (210 x 297 mm), A5 (148 x 210 mm), A6 (105 x 148 mm) and A7 (74 x 105 mm).

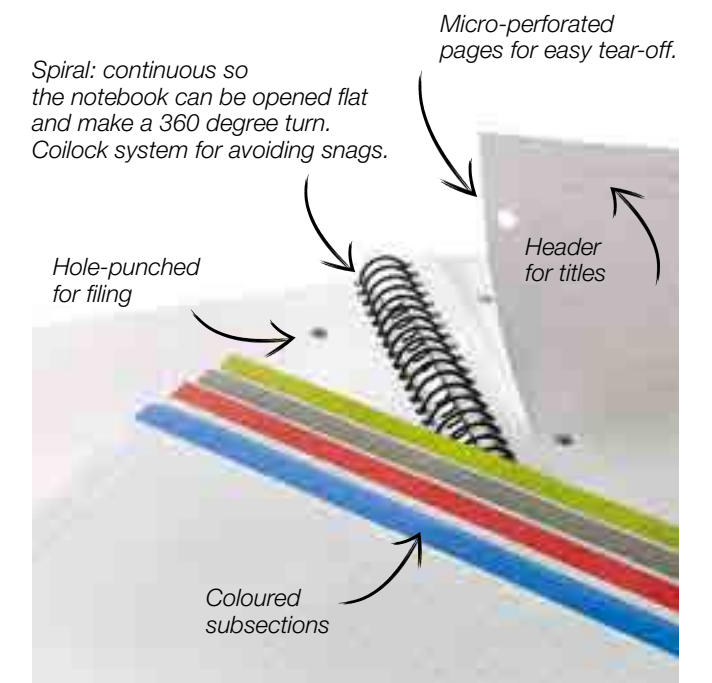

### Number of sheets:

80, 100, 120, 140, 150, 160 and 200 sheets

### Ruling:

### Side coloured subsections: more than 25 colours available

### WE ARE FLEXIBLE AND SET TRENDS

We have evolved from a range of traditional notebooks to a variety of products that set trends. From more basic and minimalist covers to a wide variety of prints. More than 500 designs that fit the personality and needs of each of our consumers. We focus on both schoolchildren and professionals adapting our notebooks to their needs.
